

THE DETERMINATOR®

Breath Alcohol Ignition Interlock Device

According to the *Centers for Disease Control and Prevention*, "Interlocks are **effective in saving lives** and **reducing drunk driving repeat offenses by 67%**.¹ Specifically, all-offender interlock laws, when implemented well, are found to reduce repeat offenses significantly.^{1,2}

Since 50 to 75% of those with suspended licenses continue to drive³, the **Determinator** cuts down on recidivism from repeat DWI/DUI offenders by forcing drivers to test their Blood Alcohol Content before starting their vehicles and during rolling retests.

Easy to use, with hassle free testing and tracking, the durable, affordable **Determinator** unit includes a customizable reporting function and options such as a camera for easy photo identification, helping ensure drivers adhere to their sentences.

FEATURES & BENEFITS OF THE DETERMINATOR

The Determinator delivers a number of critical benefits to the judicial system as well as to the general public:

SAFETY:

Keeps alcohol-impaired drivers off the road, preventing accidents and saving lives

- Ignition automatically locks when alcohol detected
- Mandatory rolling retests
- State of the art fuel cell technology
- Meets NHSTA and CE standards

EASE OF USE:

Simple for drivers to operate

- Easy-to-read digital displays and video sampling indicators
- Simple, bilingual voice commands and tone prompts
- Detachable hand held device
- Personalized, sanitary mouthpieces for breath sampling

FLEXIBILITY & CONVENIENCE:

Standard and optional features meet the range of state and sentencing requirements

- Customizable reporting available
- Optional State of the Art Camera
- Adjustable alcohol setting – from zero to required state level

SERVICE:

Using the Determinator is a seamless, customer friendly experience

- Daily reminder of next calibration date
- Toll-free number for local distributors
- Friendly, knowledgeable customer service representatives
